

Electric Work Positioner / Reel Handler WR100E

These lightweight and compact lifters are easily manoeuvrable, very versatile and easy to operate.

The lifters are designed to remove back strain from all types of lifting work.

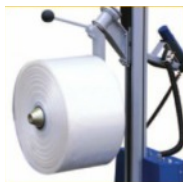

They can be used to lift items from the floor to 1.7 m with a battery powered power pack.

The lifters are a perfect solution for narrow aisles and confined spaces thanks to its overall size.

- Compact lifter with electric motor and overload protection.
- Service free battery, automatic battery charger
- Portable hand control unit with hand control cable
- non-marking swivel castor wheels, 2 of which are fitted with foot brakes
- UK mainland only: Full ON SITE 12 Months parts & labour warranty
- The lifters come with a platform and forks as standard,
- Conforms to BS EN 1757-2:2001

Other attachments are available:

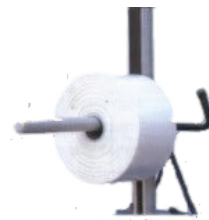

Reel rotator

V Block

Double Spindle

Single Spindle
